

I've Got Mono

Smoking Popes

I wake up after ten hours and I'm still tired
I lay down and go right back to sleep
I want to come out to the show with you tonight
But I've got mono, I've got mono

My throat feels like it's on fire and my head pounds
My body aches, I feel like I could die
I'd come to the metro and dance with you tonight
But I've got mono, I've got mono

So go on, have a good time there without me
I'll wait till they come back through town
I just wish that I could kiss you while they play our song tonight
But I've got mono, I've got mono
I've got mono, I've got mono
