

Coke And Vaseline

Snake River Conspiracy

Canter city blues
Messing up your head
Knotted on the bird
Wishin i was dead
Shit is only shit
Runnin through your brains
I'm not the one who lies
I'm not the one who dies
Feels so empty I won't lie
Situation's fine (alright alright alright)
Suits your final round
Mariachi flames
Grafitti demon god
Praised the great machine
The only things we need
Cocaine and vaseline
I'm not the one who lies
I'm not the one dies
Feels so empty I won't lie
Situations fine (alright alright alright)
Feels so empty I won't lie
Situations fine (alright alright alright.....)
The christ you thought was dead
Nazi figure head
The heart that we all need
Holds piss and gasoline
I'm not the one who lies
I'm not the one who dies
Feels so empty I won't lie
Situations fine (alright alright alright.....)
Feels so empty I won't lie
Situations fine (alright alright alright)
