

Strangled

Snake River Conspiracy

It's just been too long is what they say
I show them my masks and they don't know
How it's stuck in my head then you just won't go away
I miss it so much
How did it come to be?
I'm living with remains of me
And in this loneliness I'll see
I could leave you
Alone
Now what they say is 'just stay away.'
Mask in my hands now they all know
The closer I get the more I'm pushed away
I want it so much
How did it come to be?
I'm living with remains of me
And in this loneliness I'm gonna show you
How I could leave you
To love you
To need you
To take you down
I love you
Now that it's all been seen
There's no one left for me to be
And in this honesty you'll see
I won't leave you
To love you
To need you
To take you down
I love you
I fucking love you
I love you
I'll never, never leave you
Alone
