

## Ooops Up

Snap!

This is a song about those bad days  
Start up happy and end up sad days  
Talking about that murphies law chill  
If it can go wrong, yes it will  
Went to the store to cop some groceries  
Friday night and I had the munchies  
Filled the cart till it could not take it  
One more bag of chips would break it  
Went to the check out stood in line  
Behind me a girl who was just too fine  
Got in the ear while they rang the total  
Reached for my wallet uh oh a bolo  
Not my day I felt like a dummy  
Went to the store and forgot the money  
(Chorus)

Oops up in side your head, say oops up  
Me and amy under the covers  
Scene is hot potential lovers  
Demon in the sack is her reputation  
In school then she is graduation  
Touching holding heavy breathing  
I knew I'd get it she is not about teasing  
Left on the light so I could see reaction  
Amy is a freak guaranteed satisfaction  
She is soft as bubble bath  
I am as hard as chinese math  
Ready for the ultimate affection  
Took out a pack obtain my protection  
Rolled it on one hard stroke  
It was my last and yes it broke  
(Chorus)

Oops up in side your head, say oops up
