

## The World In My Hands

Snap!

I danced for a while  
and my moves would make you smile  
oh, I loved you then  
my dear chemical lover  
You veiled me in your haze  
like a puppet in your lace  
amazing disgrace  
from your silverspoon substance  
You took me away  
made Monday a Saturday  
you stained me with love  
and left me in dirty laundry  
but I left my ground for a minute  
Your body in my veins  
your power is what remains  
you know I never had  
such a bad, bad comedown  
You took me away  
made Monday a Saturday  
you stained me with love  
and left me in dirty laundry  
but I left my ground for a minute  
My, oh my  
you took pride in my fuck-up  
I've been cursed  
and I've been hailed  
I have blown it  
and I've inhaled  
but I never had  
such a bad, bad comedown  
such a bad, bad comedown  
such a bad, bad comedown
