

Guilty By Ignorance

Snapcase

The life you live ignoring who
Ignoring who you're giving money to
And you, you support the corrupt industries and companies
Who don't think to care
Guilty, guilty, guilty by ignorance
No feeling, no substance, killing
You're killing through your ignorance
So understand they kill
They kill for the sake of capital gain
And you don't care to know that your life steals life
So take a look at your empty conscience
Because ignorance is not innocence
You have become, you have become the enemy to those
To those victims of greed
To those victims of greed
To those victims
