Sneaker Pimps

Don't look now, we're branded, we're the black sheep  
Sewn apart and Siamese - The black sheep  
When the water seems too deep  
The shadows always wait beneath  
But laughing loud we brave the role of black sheep

If you see me you'll be crossing the street  
Or kick me and then leave me to bleed  
If looks could kill wouldn't need all the pills but  
I take what it needs to be easy  
With the black sheep now  
With the black sheep now

Don't look now we're stranded here as black sheep  
Swallowed whole and out of reach, the black sheep  
Unsafe enough for now  
We're shepherded from higher ground  
But drowned all out we saved the role of black sheep

If you see me you'll be crossing the street  
Or kick me and then leave me to bleed  
If looks could kill wouldn't need all the pills but  
I take what it needs to be easy  
With the black sheep now
