

Now your future's got me told
Stopped breathing on my own
I curl to break consent
To print the fact in stone
Suppose for seconds you forget your past
Neglect to turn in think straight stand out last

And I just curl now
To help me find you out
We're keeping devils down, sleeping sound
(2x)

Now your newspeak's aging thin
A pale and hanging faith
A devil sick on sin
Will curl against it's place
Suppose for seconds you forget your past
Neglect to turn in think straight stand out last

And I just curl now
To help me find you out
We're keeping devils down, sleeping sound
(2x)

Itch to scratch
To strike my past from all it's owed...
It's sold, it's sold, it's sold

And I just curl now
To help me find you out
We're keeping devils down, sleeping sound
(2x)
