Sneaker Pimps

Never so complete just failing on its feet
Choking out these last few days here
Never ever lied all confidence at all times
Trying hard to love myself
I think that I need some working on
So work on me
I think that nothing's getting through
So get to me
Just another no show waste of passing go
Christ knows how we get to be here

No one's broken
No one's beaten
I can see a rainbow near them
I can see a rainbow
I can see a rainbow

Never so confused just laughed out cost abused
Aiming loosely your direction
Always too extreme all case and cause to plead
Striving hard to spite yourself
I think that I need some working on
So work on me
I think that nothing's getting through
So get to me
Just another no name taken passing blame
Christ knows how we get to be here

No one's broken
No one's beaten
I can see a rainbow near them
I can see a rainbow
I can see a rainbow

Always coming clean all case and cause to bleed
Trying hard to like yourself
Never so complete just failing on its feet
Choking out its last few breaths here
I think that I need some working on
So work on me
I think that nothing's getting through
So get to me
Just another no show scissors paper stone
Christ knows why we get to be here

No one's broken
No one's beaten
I can see a rainbow near them
I can see a rainbow
I can see a rainbow
