

# Really Wanna See You Again

Sneaky Sound System

I don't want to  
Talk about you  
But I really wanna see you again  
I don't want to  
Think about you  
But I really wanna see you again

It was formed by the last  
Like a blast  
From the past  
I was ruining the brakes with you  
Jump on the step, close my eyes, count to ten  
I was breaking all the rules for you  
I won't get on the phone, only fools get me wrong  
I was wooed in the bed with you  
And the walls good advice  
Was imagining twice  
But no I can't, I can't, I can't

I don't want to  
Talk about you  
But I really wanna see you again  
I don't want to  
Think about you  
But I really wanna see you again

I won't get on the phone, only fools get me wrong  
I was a mess when I was with you  
Stars would aglin  
Then I kinda made them shine  
No I can't, I can't, I'cant

Can't fight this feeling, I can't understand it  
It makes me just wanna do it again and again

I don't want to talk about you  
But I really wanna see you again  
I don't want to think about you  
But I really wanna see you again  
Can't fight this feeling, I can't understand it  
It makes me just wanna do it again and again

I don't want to talk about you  
But I really wanna see you again  
I don't want to think about you  
But I really wanna see you again

Can't fight this feeling, I can't understand it  
It makes me just wanna do it again and again

Can't fight this feeling, I can't understand it  
It makes me just wanna do it again and again
