

I just don't wanna be lonely
Cause the lights were shining ever so bright
In my hand there's a pulse of my beating heart
I'm biting my tongue there's a plastic man on the telephone
Can you see the bright lights shining I don't know
Can you see the bright light shining, shining....
I saw a UFO but nobody believes me
I was 16 miles from home with nobody in sight
I saw a UFO but nobody believes me
And what's it gonna take to get me back home tonight.

Can you see the bright light shining I don't know
Is it a reflection of anyone, the big glow
And tell me this is all good, and you say, I don't know
I'm very, very far from home.
I saw a UFO but nobody believes me
I was 16 miles from home with nobody in sight
I saw a UFO but nobody believes me
And what's it gonna take to get me back home tonight.
