

# Awake

Snoop Dogg

When you're awake  
When lightening strikes you know  
When you're awake  
It definitely starts glowing  
All the girls that's in this room  
Get up close, you'll feel so much better  
It feels so good to know  
When you're awake  
With the G come to the light

Put your hands together and close your eyes  
Smell the aroma, visualise  
Do not try to get higher than me  
Why stop it there? Get high as can be

It's time to spark up some [?]  
Feel the blaze  
The [?] number one (there's nothing new under the sun)  
Feel the awake

When you're awake  
When lightening strikes you know  
When you're awake  
It definitely starts glowing  
All the girls that's in this room  
Get up close, you'll feel so much better  
It feels so good to know  
When you're awake  
With the G come to the light

My name is Snoop Dogg, not to complain  
I gets my groove on, I do my thing  
My planet's Krypton, home of the freaks  
Come get your moon rocks, I am a G

It's time to spark up some [?]  
Feel the blaze  
The [?] number one (there's nothing new under the sun)  
Feel the awake

When you're awake
