

Cold Game

Snoop Dogg

It's the cold game
I ain't been one
Jumping in and out of the range
Maybe an old school...
Spinning the vision from each I paint
You got to do it you can
Gotta keep rhyming
East Side high you are doing life/right
... blowing in the wind
You are thinking of me
It's gangster Bliss
This is what you're calling a sis
Pass the morphine quick
Memories is miss
I made a lot of friends
A whole lot of money
Been down a couple times
But it never stopped my rhyming
In fact I got better
... turn it to rapper
A world shows in Dumfries...
This is how a player roll
And I will never be questioned
By some new young...
Snoopy D made the way for you to walk
O in to the Almighty
Without you it couldn't be doing...
And I will never be crucified
Within my own zone
Here is a very good reason to show love
But you gotta separate... from...
Going down for murder in 93
The... all over the city bowling a...
I changed I got smarter
I got a daughter
Two sons beautiful wife a...
I did it all Jack
Popping this... international using overseas yeah
Don't judge me you only knew Snoopy
You never tried to know... you tried to groove me
Like some loco I earned my respect
... I should get a cheque
But all alone I did it B
Cool as a blind with a C
Leveled my life as I push away the goopy
But in the... you can call me up a Snoopy

Don't worry about your circumstances
Take your chances
Still from the L B C
You are the C
Haler at your own for Snoopy

I paid my duce and now it's time to make a change
Gotta make that move
There is a time and place for everything
(2x)

Don't worry about your circumstances
Take your chances
Still from the L B C
You are the C
Haler at your own for Snoopy
