

# One Chance (Make It Good)

Snoop Dogg

(Make It Good) You got one chance to crack  
One shot to pop, better hit the spot  
Cause there's a hundred other brothas that's waitin' in line  
Player it's your time to (Make It Good)  
(2x)

Now you've been waitin', patient  
Dinner datin', classic chasin'  
Your homies hatin', 'cause you're never around  
You're either at the movies or you're out shoppin' around  
All that for the cat, it's a wrap  
You gotta go hard if you get a chance to hit that  
If you hit it then you gotta hit it harder  
than any other brotha, the Karma Sutra be the author  
Be her father, be a man, be the man  
that made her never wanna see another man  
Make it better than good, make it great  
Make her visit, then make her stay

(Make It Good) You got one chance to crack  
One shot to pop, better hit the spot  
Cause there's a hundred other brothas that's waitin' in line  
Player it's your time to (Make It Good)  
(2x)

Yeah man, if you got a real one  
You better hold on to her  
See 'cause a real man will come along the way  
And smooth knock her...

If you like her, wife her  
If you love her, smother her  
With that stuff that'll make her feel the same way  
And pull that ring out on the same day  
A couple heirs with the horse and the carriage  
You gon' lose if you scared of marriage  
A real boss got a foundation  
You need somebody in your life with patience  
minus the hate... Shante what more can I say?  
But baby look at us today  
Your husband's a boss, the kids is cute  
King of the Coast with a gang of loot

(Make It Good) You got one chance to crack  
One shot to pop, better hit the spot  
Cause there's a hundred other brothas that's waitin' in line  
Player it's your time to (Make It Good)  
(2x)

I'ma make it good for you, make it hood for you  
Make it do what he couldn't do for you  
Tha Doggfather supreme, jump in the shower  
I appear through the steam  
Braids and all, over six foot tall  
Can't no other brotha fade the Dogg  
I'm all ya need, I'm who ya want  
I'm here to coach ya through your do's and don'ts and he won't

I got the remedy, the energy  
It's your mama, your daddy, and then it's me  
Bad talk a boss, I wish a player would  
Close your eyes baby girl, let me (Make It Good)
