

# Sumthin Like This Night

Snoop Dogg

Illa dilla I'm a killer, Snoop Dogg with the Gorillaz,  
Laying low on the floor, my hands are high  
I'm full of dough!  
Roomies try to kiss me slow,  
I'm leaning like a 64'  
This life I lead is incredible,  
These trees I breath are medical.  
Take a look in my eyes,  
Hold on tight, enjoy the ride!  
If you don't feel good, then you're out of place,  
My universe is out of space,  
My look, my style, my product case.  
Low daddy get out our face  
Trip this, sip this, hit that now sit back, and let Dogg go get on th  
at!  
Party people you're invited

Have you never tried something like this  
I could try and smoke with you something like this  
Have you never tried something like this  
I could try and smoke with you something like this  
Something like this , something like this  
Something like this like, something like this night

What a night to get involved,

Everybody have a pause!  
Celebrate and fill your cup,  
Drink until you get enough!  
How you feel, I got that feeling,  
Disco lights hang from the ceiling  
Ain't nobody on the wall,  
Pop it, drop it, let that fall!  
Hey DJ, play my song!  
Step back, let it bang all night long!  
I need your attention!  
No hoping or wishing!  
Come in high definition  
Said I do, right there I do,  
Get up and get money, yep that i do  
Wrote it, write it, lick it,  
Bite it, roll it, ride it!  
Party people you're invited

Have you ever tried something like this  
I could try and smoke with you something like this  
Have you ever tried something like this  
I could try and smoke with you something like this  
Something like this, something like this  
Something like this like, something like this night!
