

# You're Gonna Luv Me

Snoop Dogg

Let me take you to the land of wonder, we can wander  
Undercover, secret lovers, ay heyyy (And ohh you're gonna love me)  
(You're gonna wanna hug me, and) squeeze, squeeze, squeeze me

Let me take you to the land of wonder, we can wander  
Undercover, secret lovers, ay heyyy (And ohh you're gonna love me)

Hmm, and I ain't never felt like this  
I ain't never met a girl with the right mix  
Green eyes, light-skinned with some nice tits  
It took a minute just to write this  
I'm the Boss Dogg baby! I'ma die rich  
So let the money talk for me, fuck the nonsense  
Hold me down, be my ride or die bitch  
We fuck then we fight, we fight then we fuck  
I'ma beat it up tonight like Kimbo Slice  
Come live the proper life, no I ain't the shoppin type  
I might take you out to eat, we can grab a bite  
Now let me grab my bike and roll yo' ass through Crescent Heights  
Up in Hollywood, step into the limelight  
And hit this bubble kush, let me get your mind right  
This is "Wonderland," let your mind take flight  
We gotta hurry up, I'm only here for one night

Let me take you to the land of wonder, we can wander  
Undercover, secret lovers, ay heyyy (And ohh you're gonna love me)  
(You're gonna wanna hug me, and) squeeze, squeeze, squeeze me

This next girl Bird, she from the suburbs  
And live by herself, like cars and nice furs  
And loves hip-hop - The Neptunes and Murs  
But I'm her favorite rapper, my biggest fan is her  
I like her skin tone, and how her figure curves  
We smoke mad kush and drink until our vision blur  
And then I pat her down, like she gettin searched  
I fuck her with my chain on, she pulls on my shirt  
Like nigga don't stop, until the pussy squirt  
I hit it twice and bone out, she went back to work  
This happens all the time, I gotta go rehearse  
For my next show, I tour on May 1st  
Get yo' mind right, and this may work  
You know love is pain, and havin faith hurts  
You rollin with the best, so grab your heels and purse  
And welcome to "Wonderland" the best place on Earth  
Uhh, you gon' love me!

(And ohh you're gonna love me)  
(You're gonna wanna hug me, and) squeeze, squeeze, squeeze me
