

Secret garden

Snow Ghosts

Take me to your secret garden
Where the light shines through the trees
Wander down my lonely river
Whispers berried and worried

Take me to your secret garden
Hold me back through time we've lost
Shake in boat and I'll tell no one
That the river can't be crossed

And you'll love
The waters will rise
The waters will rise

I'll wash it all away
wash it all away
wash it all away
wash it all away

And you'll love
The waters will rise
The waters will rise

I'll wash it all away
wash it all away
wash it all away
wash it all away
