

Untangle me

Snow Ghosts

I walk a winding road
Every step a heavy load
My heart became a ball and chain
That I drag
Along the dirt

We tied a Bowen's knot
Promises we soon forgot
Now our lives forever intertwine
Untangle me

We grew like creeping vines
Strangling our hearts and minds
Dry your eyes to watch the water rise
It suffocates in time

We chase after the sinking sun
All alone but still with everyone
Now our lives forever intertwine
Untangle me
