

# Don't Give In

Snow Patrol

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know

It's in your blood  
And it's in your making  
So don't hold your tongue  
'Cause it's, it's no longer working  
Don't fall on your sword  
Just follow your instinct  
Like an old lesson learned  
Like an old lesson learned

Only you know what it, what it is to see through  
See through the eyes that are trained on me now  
I can, I can only tell you how it, how it looks from here  
I think you made up your mind  
I think you made up your mind

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know

Yes there's a lot we can  
We can learn from this loss  
Learn not to let it fall around our ears  
Don't fall in love with the, with the way things were  
It'll fuck up your mind, it'll fuck up your mind  
For this is all on the wings of others  
I loved you more  
More in your own flight  
So it ain't the same  
It won't be lost forever  
It won't be lost forever

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know

This is your grace  
And I don't know why, and I don't know why  
This is your grace  
And I don't know why, and I don't know why

Don't give in  
Don't you dare quit so easy  
Give all that you got on the soul  
Don't say that you want it forever  
I know, I know
