

## When It's All Over We Still Have To Clear Up

Snow Patrol

You're not fair  
Telling me  
You faked every orgasm  
You've had with me  
That's just fine  
Now it's over  
And I'm out here  
Banging my head  
After all the dancing  
And spilling beer all over the place  
I lie out here  
In disgrace  
You've had your fun  
Kissed some bloke you shouldn't have  
Right in front of me  
Punched him to the floor  
I could have killed him there  
But I got thrown out  
I'll get him some other time  
When he leasts expects it
