

What You Like

Snow Tha Product

I know that you don't smoke,
But you know I got that fire
And I'll be good to go,
I even got a lighter
Yeah!
One shot for the check, for the cash
Ain't scared to be independent
I just have to know, but I did
and I think I'ma have to pay you a visit
I've been drinking late in the club,
Up with the team and we living it up
Thinking what you would happen to us
'Cause when I say fuck it, I don't give a fuck!
I just say that, say that, say that, say that
Love it how you don't take that, take that, take that, take that
'Cause I know you mad, but if you see me
You might change up, I know it's bad
But if you sleepy, I hope you might wake up
Baby, I been throw it up, throw it up
Roll the blunt, roll the blunt
Pop the bottles, pop the bottles
Slow it up, slow it up
I'm about to show you what U like, what U like
I'm about to show you what U like, what U like!
Baby, I been throw it up, throw it up
Roll the blunt, roll the blunt
Pop the bottles, pop the bottles
Slow it up, slow it up
I'm about to show you what U like, what U like
I'm about to show you what U like, what U like!

I'm over done it with the liquor,
What you expect in front of drunk club?
I'm bad at relationships, I play till it's too late
Then I hit you with the hands up
Same shit, you fuck up, I get fucked up!
Then your number get blocked and I run off
On my pedestal 'cause you've been full of shit
Since the day I met when I was young and I used to fall for your stuff
But now I'm grown enough to know, fuck trust
I just really have to hit you when I'm buzzed up
Now I'm dealing with the rush of
Just hitting you up, beating you off
Leaving your car, and you get in my truck
We get away for a week or a month,
Then drop you off like I don't give a fuck
But I say that, say that, say that, say that, say that
Love it how you don't take that, take that, take that, take that
Hey I've been hell of tired of all the drama under low
But if you're free tonight I got this spot that we can go,
Baby, I been throw it up, throw it up
Roll the blunt, roll the blunt
Pop the bottles, pop the bottles
Slow it up, slow it up
I'm about to show you what U like, what U like
I'm about to show you what U like, what U like!
Baby, I been throw it up, throw it up

Roll the blunt, roll the blunt
Pop the bottles, pop the bottles
Slow it up, slow it up
I'm about to show you what U like, what U like
I'm about to show you what U like, what U like!
