

Darling, This Movie Was Filmed In Horrorwood On The Thirteenth

Snow White's Poison Bite

Come on down to the murder scene
She's gonna cut you up and make ya bleed
So spill your guts out on the silver screen
Here we go!
Here we go!
Come on down to the morgue and see
The operation on a zombie teen
The camera's rolling and she wants to hear you scream
Here we go!
Here we go!

So take a loaded gun and pull the trigger back
It's enough to make you blow your brains out
Now take this body bag from the morgue you're at
And drag your dreadful corpse back to the graveyard

Spill your guts out!
Blow your brains out!
Spill your guts out!
And blow your fucking brains out!
GO!

Now take this knife you have so you can cut and slash
It's enough to make you slit your own through
Now take this body bag from the morgue you're at
And drag your dreadful corpse back to the graveyard
GO!

Dig up this corpse from rotting under the mud! Dig up this corpse!
