

Sleeping Beauty

Snow White's Poison Bite

Fearless, sleepless under stars
Love pulls us back into our hearts
Everlasting love ripped us apart
How can we fix our broken hearts?

Oh no, don't go my shooting star
These flashbacks drag me to the start
This time we've pulled our hearts apart
How can we fix our broken hearts?

Today's the day to take away our hearts
To find a way to make a change in love
Tonight's the night to wipe away our scars
To find a way to fix our broken hearts

How can it be this hard?
Far away is just too far
For my broken heart (my broken heart)
So wake up Sleeping Beauty
I'll love you today and kill you tomorrow (I kill you)

How can it be this hard?
Far away is just too far
For my broken heart (my broken heart)
So wake up Sleeping Beauty
I'll love you today and kill you

Away from hope, so close to hate
Away from love, away from fate
Away from hope, so close to hate
Away from love, away from fate

How can it be this hard?
Far away is just too far
For my broken heart (my broken heart)
So wake up Sleeping Beauty
I'll love you today and kill you tomorrow (I kill you)

How can it be this hard?
Far away is just too far
For my broken heart (my broken heart)
So wake up Sleeping Beauty
I'll love you today and kill you tomorrow
