

There's A New Creep On The Block

Snow White's Poison Bite

Hello haters and hello friends, it's me Jeremy, I'm back again.
All my haters, all my friends, I'm the oogie boogie monster and I'm back for my revenge.
Hello haters and hello friends, it's me Jeremy, I'm back again.
All my haters all my friends, I'm your lucky number thirteen and bad luck until the end.

Everybody always told "You'll be nothing, you should quit."
To tell the truth, just shut your mouth, I'm getting sick of hearing it!
Look at me
Now!

Everyday it's the same old song,
I told you all that I'll prove you wrong.
Yes, I'm fucked up and I'm strange,
I'm everything you call me, I'm all the stupid names.

And I'll be on your TV screen and I'll be in your magazines.
I'm something all your parents hate to see, but don't worry it's just me.
JEREMY!

Just give up you've tried enough, you'll never make it with that dream.
Now is your time to quit! Step back into reality.
Look at me
Now!

All along I knew you were wrong,
I'll take everything you have to say.
Just tell something I don't know about myself,
Give me everything you got, you know I'm all things you're not.

And I'll be on your TV screen and I'll be in your magazines.
I'm something all your parents hate to see, but don't worry it's just me.
JEREMY!

(The thirteenth, the thirteenth)
The thirteenth!

Hello haters and hello friends, it's me Jeremy, I'm back again.

Hello haters and hello friends, it's me Jeremy, I'm back again.
All my haters all my friends, I'm your lucky number thirteen and bad luck until the end.

Look at me now
And tell me something I don't know about myself.
Look at me now
And tell me something I don't know about myself.

Look at me now
And tell me something I don't know about myself.
Look at me now
And tell me something I don't know about my fucking self!

FUCK YOU!

Hello haters and hello friends, it's me Jeremy, I'm back again.
