

## Counterfeit Rules

Snowden

I want to say my peace, I hope that it sinks in  
I want to flatten your crease, I want to make you bend  
I want to show you how you lose  
When the bottom falls out they'll sell you out  
Those counterfeit men and their counterfeit rules

I trust myself and I trust you  
But not, but not  
I've seen them line you up  
I've seen them run you down  
I've seen you be their crutch  
And I've seen you be their clown  
I'm gonna show you how you lose  
You play the game you wear the noose  
Of those counterfeit men and their counterfeit rules

You've seen them on tv  
With their bombs and their death rays  
And they tell you the only thing to fear  
Is that devil and his gay plague  
I'm gonna show you how you lose  
I trust myself and I trust you  
But not counterfeit men or their counterfeit rules

When the bottom falls out they'll sell you out  
You play the game you wear the noose  
I trust myself and I trust you  
But not counterfeit men or counterfeit rules
