

Iceman

Snowgoons

Born out of necessity
One day on a cold winter's night
Was born the ice man
Cymarshall Law, Snow goons

I'm cold as ice you know I'm nice
There's not a chance that when you roll them dice you better go to Christ
But I'm holding mics my pen panda stroll like dolo mice
If papa got your back that chewie when Han solo fights
Since I was a kiddie young professor and stole them bikes
I took no advice and said that I was gonna own my life
A great game takes sacrifice I know the price
Don't show what hurts caus some will think I got a solo vice
Rap boss flow colder than Jack Frost
Don't act lost just take notes from this strapped cause
Wrap my arm as I'm leaving to travel
And learn how to stay calm in the heat of the battle
If you're a thinker then you'll know laws a ninja
And my foes fall like the thought of winter
This is hip-hop grafted with skill
The iceman made it for you to chill

I'll never loose my cool, it's the Iceman
I'm a always be fresh, it's the Iceman
The one you just can't phase, it's the Iceman
Everybody claiming John blazed on ice man
And I came through the storm, it's the Iceman
But I still remain strong, it's the Iceman
I got the right plan never can I can
Make everybody say Iceman

The evilness in this track will make the heavens gates close and the taberna
cles crack

It's my season ace a never leave a beat to waste
When rappers see my face they always freeze in place
To see what I can do I'm on point like an icicle
I spin kick like bicycle this shit I write for you
Blows in heads and bump diss to the coldest stare
You know my ways I stare at you with a frozen gaze
I mean bis rain sweet house know
When I fail no, break no, caus I got a great flow
Ever since I was a little kid who used to taste no
But these scrawny dude all be acting like they ain't know
I'm unaffected last time I checked it
Law and Snowgoons ya'll show toons can get the exit
Step quick you don't rep shit you ain't respected
They call me iceman caus no ones as fresh as me
Ya'll get high and stale I'm in the game for long jerody

DJ's play that wax and ya'll keep creating raps
Snowgoons is like Bigfoot the way they be making tracks
Listen Marshal never wear that cut cookie saw
That's so cold brothers gotta put a hoodie on
Simply coulda thrown on gloves too
I make songs ice cold bitches wanna fuck to
Mic check one two

Watch what I come through
There's a lot of fake in this world but I come true
