

## Can't Take It With You

### Social Distortion

I'll tell you something, baby, that's a fact  
Never see a hearse with a luggage rack  
All your money, your hard earned pay  
It don't mean shit, babe, at the end of the day

Can't take it with you, can't take it with you  
Can't take it with you, can't take it with you  
Oh no, you can't take it with you  
Can't take it with you  
Can't take it with you  
Can't take it with you when you go

As sure as life, and the light of day  
I'll tell you something I've heard them say  
It don't matter, baby, what you're worth  
Seems we all, we all go back to Mother Earth

Can't take it with you, can't take it with you  
Can't take it with you, can't take it with you  
Oh no, you can't take it with you  
Can't take it with you  
Can't take it with you  
Can't take it with you when you go

Work all your life, you've become a slave  
There ain't no spending when you're in the grave  
Even if it's raining thousand dollar bills  
Think of me, baby, in your mansion on the hill

Can't take it with you, can't take it with you  
Can't take it with you, can't take it with you  
Oh no, you can't take it with you  
Can't take it with you  
Can't take it with you  
Can't take it with you when you go
