

## Drug Train

### Social Distortion

It'll take you as high as the heavens  
It'll take you to the depths of hell  
It'll make you friends, it'll take your friends  
Who will never live to tell

Drug train, drug train

The train's first stop is pleasure,  
The sccond stop is fun  
But in a jail cell baby or a hospital bed  
You'll need hope 'cuz you ain't got none

Drug train, drug train

The train passes through the graveyard  
May the loved ones rest in peace  
For the last stop baby is a violent crash  
And hard times they never cease

Drug train, drug train
