

# Through These Eyes

## Social Distortion

Through these eyes I've seen love and I've seen hate  
I've seen the violence and the tears  
Through these eyes  
I got my schooling on the streets  
I've seen the things in life  
You don't wanna see

Through these eyes I've seen the shape of things to come  
And I've watched them all fall apart  
Through these eyes  
I've seen the broken homes, they cry  
I've seen the poor man's face  
As he stands in line

And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on

Through these eyes, I've looked the devil in the face  
And I've seen God's holy grace  
Through these eyes  
I've tried to walk the straighter line  
I found myself again  
But nearly lost my mind

And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on, yeah

And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on  
And though my heart has made me weary  
On a road less travelled on  
Through the heart it hurts so dearly  
And the pain it lingers on, yeah
