

Leaving Song

Socialburn

Forget the things I said last night
'cause I was wrong and you were right
I can't believe the things I say to you sometimes
There's twenty-four hours till I go away
They want me over there so I can't stay
So I say make the best of the times we have

Hold on to me tonight
'cause this could be the last time
hold on to me forever

My friends think that I should be out hangin' around
Their local bars what's wrong with this town
All I really want or need is you

There's twenty-four hours till I have to leave
then I'm off to see what I can see
It's my job don't take it personally

Hold on to me tonight
'cause this could be the last time
hold on to me forever
hold on to me forever

Forget the things I said last night
Forget the things I said last night
'cause I was wrong and you were right

Hold on to me tonight
'cause this could be the last time
hold on to me forever

Hold on to me tonight
'cause this could be the last time
hold on to me forever
hold on to me forever
hold on to me forever
