

## Speak Now

Socialburn

Speak now or forever hold your peace life's too short so would  
you walk with me you're too scared to say what you need from me  
when I need you to speak  
Now or forever hold your arms around me I can see the sun but i  
t's fading out it's fading out it's fading  
When you swore that you would change so  
What happens now is what happens now and I swore I'd rearrange  
and make time for us have we lost all trust speak now or foreve  
r hold your tongue when your  
Mouth is dry my bodies numb your too scared to say what you nee  
d from me when I need you to speak now or forever hold your arm  
s around me I can see the  
Sun but it's fading out its fading out its fading out
