

## Stacy

Socialburn

She'll take you down she'll spin you round  
She'll make your head explode  
Like no one else in town will  
But turn your back she'll walk away  
She'll make you want to stay  
Like no one else in town will

Watch out your head will explode  
Watch out your head will explode  
Watch out your head will explode

She'll get you drunk  
She'll make you drive  
She'll make you want to stay alive  
Like no one else in town will  
She'll smoke you out  
She'll get you high  
She'll make you want to die  
Like no one else in town will

Watch out your head will explode  
Watch out your head will explode  
Watch out your head will explode  
(2x)
