

# Touch The Sky

Socialburn

I don't know  
how long it takes  
All i know is that I can't wait much longer  
I don't know  
what it takes  
All I hope is the pain will only make us stronger  
stronger  
Is it the air in my breath that makes you afraid that I'm about to say what  
I never should say

To someone just like you  
who always gets confused  
between love and abuse  
and all the people you use  
Or someone just like me  
who can't go to sleep  
without falling in love  
without playing for keeps  
But we can touch the sky  
if we only try

I don't know  
why the water breaks  
but the wind in my hair makes me feel like I'm someone stronger  
I don't know  
why I make mistakes  
but all I can hope is the pain will only make us stronger  
stronger  
Is it the air in my breath that makes you afraid that I'm about to say what  
I never should say

To someone just like you  
who always gets confused  
between love and abuse  
and all the people you use  
Or someone just like me  
who can't go to sleep  
without falling in love  
without playing for keeps  
But we can touch the sky  
if we only try

Is it the air in my breath that makes you afraid that I'm about to say what

Yeah you can touch the sky

And man you getta try
