

## Bibles and Guns

Sodom

They want to see our castles burning, false religions from a wicked spell  
Commit crimes in ice-cold blood, the tortured souls to dwell

Born dead creatures live again, paralyzed to kill themselves  
Reality that disappears: forever buried dreams

|The hate is spreading far away  
Bibles and guns!  
|Or in the neighbourhood maybe  
Bibles and guns!  
|When even life\'s collapse begins  
Bibles and guns!  
|Just what we need:  
Bibles and guns!

Seems like a monumental struggle of good and mighty evil  
Everlasting devastation until the death redeemed

Born dead creatures live again, paralyzed to kill themselves  
Reality that disappears: forever buried dreams

|The hate is spreading far away  
Bibles and guns!  
|Or in the neighbourhood maybe  
Bibles and guns!  
|When even life\'s collapse begins  
Bibles and guns!  
|Just what we need:  
Bibles and guns!

The debris covered our hope to sleep the endless sleep  
Peace no longer rest in my brain, my victim just for me

Born dead creatures live again, paralyzed to kill themselves  
Reality that disappears: forever buried dreams

|The hate is spreading far away  
Bibles and guns!  
|Or in the neighbourhood maybe  
Bibles and guns!  
|When even life\'s collapse begins  
Bibles and guns!  
|Just what we need:  
Bibles and guns!  
|The hate is spreading far away
