

Blood on Your Lips

Sodom

Stalking down the enemy, these haunting memories
The evil men are killing blindly, erased of human waste
It's frozen in their face; traumatic minds enslaved
Screams that never reached my ears until the death redeems

Ambivalence! Lost salvation!
Lunatic fringe! Incarceration!
Freedom's slave, subliminal deceit

Blood, blood on your lips
Measure my faith, come on to die with me
Blood, blood on your lips
You're falling down into a pitiless sleep

My systematic procedure within my concious mind
Can\'t wash away the crimson stains; no tears that save my eyes
Passion for the flesh, I know that never dies
The devils that surround me never asking why

Imagination! Victimized!
Obliteration! Justified!
All I see: the multitudes of death

Blood, blood on your lips
Measure my faith, come on to die with me
Blood, blood on your lips
You're falling down into a pitiless sleep

Blood!!! - Die with me
Blood!!! - On your lips

I am the chosen one, your dad and your lovely mum
I\'ll offer my secrets for you: my physical lust
This is for me and you searching to find the truth
No reason for you to cry, we\'ll find the paradise

Blood on your lips

Ambivalence! Lost salvation!
Lunatic fringe! Incarceration!
Freedom's slave, subliminal deceit

Blood, blood on your lips
Measure my faith, come on to die with me
Blood, blood on your lips
You're falling down into a pitiless sleep

Blood!!! - On your lips
Blood!!! - Die with me
