

Code Red

Sodom

Belonging to an alliance
For better or for worse
Disloyalty gets punished
If you tear down the wall
Your strength of will, built on sand
Footprints on your face
No dream and no reality
Will save you from yourself
No dream and no reality
Will save you from yourself

Code Red...

Discriminated without permission
Against the closed one
Who was your bother hand in hand
When the war began
Infecting total facism
To a crawling wimp
They let you run the gauntlet
And worship their defeat
They let you run the gauntlet
And worship their defeat

Code Red...

Exasperated defamations
Barbarian rebirth
Mobilized the inner beast
Indulge your natural curse
Reclaiming of your dignity
Privacy lost in cries
Unheard, pounding screams of hate
At the wall of lies
Unheard, pounding screams of hate
At the wall of lies

Code Red...
