

# Decision Day

Sodom

My inner conflict  
My frantic face  
My desperation  
Waiting for the final breath  
My wrong belief  
My fateful deeds  
My aweless pride  
Hope to reach the other side

I saw my comrades  
Yielding up their fate  
They passed away  
With water for their final grave

Decision day

With doom beyond  
The hell invited me  
To leave this world  
With dreams of liberty

Decision day

Your blind courage  
Your iron will  
Your senseless orders  
War will end in victory  
Your machine gun fire  
Your ruling liar  
Your battle ground  
Soaked with blood of honor

I saw my comrades  
Yielding up their fate  
They passed away  
With water for their final grave

Decision day

With doom beyond  
The hell invited me  
To leave this world  
With dreams of liberty

Decision day

Their cold anger  
Their despite  
Their misanthropy  
For men who fought and died  
Their megalomania  
Their reign of terror  
Their armored life  
A godless hail of fire

I saw my comrades  
Yielding up their fate

They passed away  
With water for their final grave

Decision day

With doom beyond  
The hell invited me  
To leave this world  
With dreams of liberty

Decision day

Surrounded by the death  
Along the beach  
The doomsday just released  
So close in front of me
