

# Into the Skies of War

Sodom

Casting shadows on a greenish mud  
I'll cross the plains of dawn  
Foul stench and open wounds  
A baleful crushing storm

Only creeping death contest  
For those who never lived  
Blood cannot bear reality  
Heaven is out of reach

Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war

Heretics send to banishment  
Where there is no return  
The truth keeps calling us to hell  
The axe came breaking down

Who've send us all that misery  
The prophets mesmerized  
Shining bones indicates what has been  
Hate passing through the lines

Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war

We got no choice  
In a world of anarchy  
Taking up the guns  
No more philanthropy

Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war

The flag raised on the mountain top  
We killed for those who couldn't kill  
The bullets fly will never stop  
We never shed a tear

The seed of hate across the land  
Remains in fields and vaults  
The price of freedom paid  
Ideology deformed

Only creeping death contest  
For those who never lived  
Blood cannot bear reality  
Heaven is out of reach

Into the skies of war  
Into the skies of war

Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war  
Into the skies of war
