

Believer

Sofa Surfers

Monopolise me
Magnetise me
Take me for the fool for you that I am

Idolise me
Philosophise me
Change me from the innocent to the wisest of men

Make me a believer...
Make me a believer

Disorganise me
De-civilise me
Introduce me to the truth of what it really means

Desensitise me
Look in the eyes me
Speak to me in tongues that only you and I understand

Make me a believer...
Make me a believer

Take by surprise me
Word to the wise me
Take me deep into the core until I'm at the seams

Theorise me
Then realise me
Take me from reality into a thing of dreams

Make me a believer...
Make me a believer

Idolise me
Philosophise me
Change me from the innocent to the wisest of men

Desensitise me
Look in the eyes me
Speak to me in tongues only that you and I understand

Make me a believer...
Make me a believer

My eyes are open and my senses are bright
Rain down your light
And wake me from this night...
