

# Together Alone

Soft Cell

Another day melts into the evening  
I sit alone and watch the stars  
Remembering times  
I think of the past

Here in my isolation  
In the solitary situation  
Reality hurts  
Where memories last

When you whisper my name in the silence  
You stop my heart with a touch of violence  
We'll always be  
Together alone

You're a breath in my ear  
You're a word in my mind  
I'm here on my own  
Just two of a kind  
Together alone  
Together alone

You share in my deepest secrets  
You're here in my darkest moment  
Together alone  
Together alone

You know what I'm always thinking  
You lift my mood when I'm sinking  
Together alone  
Together alone

When you're here in my arms  
I'm dreaming of you  
Life will end when I stop  
Believing in you  
Together alone  
Together alone

You're like a shadow  
At the edge of my eye  
Like a chill in the air  
Like a light in the sky  
Like the endless peace after we die

You're a breath in my ear  
You're a word in my mind  
I'm here on my own  
Just two of a kind  
Together alone  
Together alone

I don't need anybody  
I don't want anybody  
I'm on my own  
Together alone

Nobody can understand us  
Nobody to make demands on us  
Together alone  
Together alone

And as the bombs are falling  
I hear a voice that's calling  
Together alone  
Together alone

You're a breath in my ear  
You're a word in my mind  
I'm here on my own  
Just two of a kind  
Together alone  
Together alone

Are you listening to me now?  
Are you listening to me now?  
Together alone  
Together alone

You're deep in my heart now  
You're deep in my soul now  
Together alone  
Forever alone

You're a breath in my ear  
You're a word in my mind  
I'm here on my own  
Just two of a kind  
Together alone  
Together alone  
Together alone  
Forever alone  
Are you listening to me now?  
Are you listening to me now?  
Together alone  
Forever alone  
Together alone  
Together alone  
Are you listening to me now?  
Are you listening to me now?
