

I can feel it coming, we can never go back  
We can never go back  
I can feel, I can feel it coming  
We can never go back  
I can feel it coming, we can never go back  
I can feel, I can feel it coming  
We can never go back  
I can feel...

I can feel it coming over the hillside  
It's a valley fire and it's coming to burn us down  
Like a rushing comet bound for the planet  
And we're dinosaurs living in denial

I can feel it coming, we can never go back  
We can never go back  
I can feel, I can feel it coming  
We can never go back  
I can feel it coming, we can never go back  
I can feel...

As the ice is melting, merging with ocean  
All our eyes are open and we're looking out to sea  
And I'm hibernating, shut down and waiting  
For another summer living in denial

I can feel it coming, we can never go back  
I can feel it coming, we can never go back  
I can feel, I can feel it coming  
We can never go back  
I can feel it, feel it  
We can never go back  
I can feel...

I can feel it coming, coming back to haunt me  
It's a glass that's empty and we're trying to fill it up  
We're lost civilians with the weight of millions  
We're pawns in war living in denial

I can feel it coming, we can never go back  
I can feel it coming, we can never go back  
Never go back, we can never go back  
I can feel, I can feel it coming  
We can never go back  
I can feel it coming, we can never go back  
I can feel it coming, we can never go back  
I can feel, I can feel it coming  
We can never go back, never go back  
I can feel, I can feel...

We can never, we can never go back  
We can never, we can never go back  
We can never, we can never go back

I can feel it coming, we can never go back  
Never go back, never go back  
I can feel, I can feel it coming

We can never go back  
Never go back, never go back  
I can feel it coming, we can never go back  
Never go back, never go back  
I can feel, I can feel it coming  
We can never go back  
Never go back, never go back  
I can feel, I can feel it
