

Falling

SOHN

I've been wrong
Countless other times before
If I'm not, this could really be something
But hold me down, I've got my lessons learned now
Hold me down 'cause I leave in the morning
I got fun, but I'm fascinated somehow
Here's the time to turn my life around
Hold me down, don't let me carried away now
Hold me down 'cause I think that
I'm falling falling falling falling
Falling falling falling falling
Out of hands, make the loving hard falling
Understand, don't want that happening to them
Hold me down, got my eyes on the prize now
Hold me down 'cause I think that
I'm falling falling falling falling
Falling falling falling falling
Yeah, I know that I'm falling falling falling falling
Falling falling falling falling
Falling falling falling falling
