Oscillate

SOHN

```
hold fire hostage
come back to the rain
don't fight for logic
it can be yours again
somehow and somewhere
over sea and shame
you crawl back to find out
can we oscillate?

oh heart of mine you know
love is only blind if we
defy light for darkness
defy light for darkness
oh heart of mine you see
clean breaks are make-believe
defy light for darkness
defy light for darkness
```
