

Lost to leave fall  
I'm into an apocalypse  
Hungry decry I for something behind you

Guess I believed in a system  
Where the bodies outweigh the cars  
Guess I believed in a system, a system

Skin to skin  
Did right to know that you need me now  
Watch the conscience drive to something we both allow

Yeah we believed in a system  
Where the temperature fuels the fire  
Yeah, we believed in a system, a system

But everybody knows it's wrong  
Everybody knows it's wrong  
And I can't do this to the one I love  
I hope I can go on  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong

Skin to skin  
Did right to know that you need me now  
Watch the conscience drive to something we both allow

Yeah, we believed in a system  
Where the bodies outweigh the cars  
Yeah, we believed in a system, a system

Everybody knows it's wrong  
Everybody knows it's wrong  
Everybody knows it's wrong  
Everybody knows it's wrong  
Everybody knows it's wrong

And I can't do this to the one I love  
I hope I can go on  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong  
I hope I prove myself wrong
