

Like It Is

SOiL

No one cares what you offer
No one cares what you think
No one cares about anyone out there
And nobody is listening

You better say it like it is
You better say it like it is
Say it, like it is, motherfucker say it like it is

Say it, like it is
You better say it like it is
Say it, like it is, motherfucker say it like it is

There's no expectation
There's no belief, yeah
I've given in to my hope and I'm feeling
My life is drained out me

You better say it like it is
You better say it like it is
Say it, like it is, motherfucker say it like it is

Say it like it is
You better say it like it is
Say it, like it is, motherfucker say it like it is

You have underestimated me
I'll tell what the hell i think
There's no more hope, no more dream
No truth to anything

May i have your attention please
I'll tell what i think
There's no more hope, no more dream
No truth to anything

Say it, like it is
Motherfucker say it like it is
Say it, like it is
Motherfucker say it like it is
Say it, like it is
Motherfucker say it like it is

You have underestimated me
I'll tell what the hell i think
There's no more hope, no more dream
No truth to anything

Say it, like it is
Motherfucker say it like it is
Say it, like it is
Motherfucker say it like it is
