

Need to Feel

SOIL

Tell me what you wanna be,
don't hide it from me
Tell me where you wanna be,
and I'll take you there
Tell me how you wanna feel,
don't keep it from me
Tell me how it oughta be through
more than a stare
Show me what you wanna be,
and don't hide it from me
Show me where you wanna be,
and I'll take you there
Show me how you wanna feel
don't keep it from
Show me how it oughta be through
more than a stare

I just wanna see you
And I just wanna hear you
And I just need to feel you
I just wanna see you
And I just wanna hear you
And I just need to feel you
So stand up

Tell me who you are
Tell me where you wanna be
Tell me how you feel
Show me how it oughta be
Take a little piece of me and hang
it from the right tree
Share a little piece of me and I'll
keep you as a part of me

I just wanna see you
And I just wanna hear you
And I just need to feel you
I just wanna see you
And I just wanna hear you
And I just need to feel you
So stand up

You are my all
You are my everything

Who are you, you're my everything

Tell me what you wanna be,
don't hide it from me
Tell me where you wanna be,
and I'll take you there
Tell me how you wanna feel,
don't keep it from me
Tell me how it oughta be through
more than a stare

I just wanna see you

And I just wanna hear you
And I just need to feel you
I just wanna see you
And I just wanna hear you
And I just need to feel you
So stand up

I just wanna see you
And I just wanna hear you
And I just need to feel you
I just wanna see you
