

## Pick Me Up

SOiL

One thing looking over my shoulder  
Is the thought that it won't last  
I got to give it this, it's moving fast  
Better make a mark before it all pass

Whoever thought that they had doubts had better think again  
You cannot begin to understand aal the things I am  
That's for sure  
If my world falls to pieces, will you still be there to pick me  
up?

I got respect for the people who listen  
To the people who understand  
The way I am and the way I act  
This is my, there's no changing that

Whoever thought that they had doubts had better think again  
You cannot begin to understand aal the things I am  
That's for sure  
If my world falls to pieces, will you still be there to pick me  
up?

Pick up the pieces of me  
Pick up a piece

If my world falls to pieces, will you still be there to pick me  
up?
