

Psychopath

SOiL

You swear that you're the one I can wrap my arms around
Every day and every night but when the time comes you won't be
found

So psycho, my little psycho, you're so psycho
You know I gotta love you
So psycho, my little psycho, you're so psycho
You gotta know you're the one

You're the one... the only one that make dreams matter
You're the one... the only one, my disaster

You swear that I'm the one, you live your life around
But when the morning light comes, another man he holds your crown

So psycho, my little psycho, you're so psycho
Loveless, hollow
So psycho, my little psycho, you're so psycho
You gotta know you're the one

You're the one... the only one that make dreams matter
You're the one... the only one, my disaster
You're the one... the only one that make dreams shatter
You're the one... my precious queen of disaster

You are the queen that consumes me (rules me)
Make me your jester, make me crawl (crawl)
Loveless, psycho, hollow, psycho
You are the queen that will bleed me (bleed me)
My psycho monster you are all (all)
Loveless, psycho, hollow, psycho
Queen of, hollow sorrow, psycho

You swore you were the one I could wrap my arms around
But when the morning light comes, someone else wears your crown

You're the one... the only one that make dreams matter
You're the one... the only one, my disaster
You're the one... the only one that make dreams shatter
You're the one... my precious queen of disaster

So psycho, my little psycho, you're so psycho
You know I gotta love you
You're so psycho, my little psycho, you're so psycho
Loveless, hollow
