

# Redefine

SOiL

First Sight  
Turns me round again  
Brings me face to face with my sin  
I've got it, Always had it  
A reason to look within now  
Take flight  
To your son again  
Burns the sin  
Straight from my hands  
I've got it, Always had it  
A reason to live within now.

Every time I fall, You catch me  
And every time I lose control  
You help me, you save me  
And every time I lose myself  
You find me, redefine me

My god  
Think my hands have been  
Makes me sick from inside out again  
I've got it, Always had it  
A reason to look within now  
Stand close  
To my side again  
Never stick a knife in my back, friend  
I've got it, Always had  
a reason to live within now

Every time I fall, You catch me  
And every time I lose control  
You help me, you save me  
And every time I lose myself  
You find me, redefine me

Somebody to make me feel whole again  
Life gets better  
Somebody to make me wanna love again  
Life gets better  
Somebody to make me see the sun again  
Life gets better  
Somebody to hold me  
Hold me  
till this Life feels better

Every time I fall...

Every time I lose control  
You help me, you save me  
Every time I lose myself  
You find me, redefine me  
And every time I hate myself  
You love me, forgive me  
Every time I lose myself  
You find me, redefine me.
