

# Tear It Down

SOIL

Picture this  
You're going down  
I can not stop the fall

Descending fast  
And you hit the ground  
Is this the end for us all

No more will I feel this  
It's not impossible  
Too bad to those who risk  
Out on the miracle

Down, down,  
And were tearing  
Change the structure  
We have been tearing it down  
Tearing it down  
Tear it down

And the feelings come  
You felt for so long  
You must get up  
Take another hit  
It only makes you strong

No more will I feel this  
It's not impossible  
Too bad to those who risk  
Out on the miracle

Down, down,  
And were tearing  
Change the structure  
We have been tearing it down, down  
And were tearing  
Change the structure  
We have been tearing it down  
Tearing it down  
Tearing it down  
Tearing it down  
Tear it down

Now picture this  
You're going down  
Is this the end for us al  
No more will i feel this  
It's not impossible

Down, down,  
And were tearing  
Change the structure  
We have been tearing it down, down  
And were tearing  
Change the structure  
We have been tearing it down  
Were tearing

Change the structure  
We have been tearing it down  
Tearing it down
